In honor of
Tore Godal

HONORARY SEMINAR

Saturday 23 November, 1130-1400
Gamle festsal, Domus Academica, University of Oslo (UiO)

49 YEARS IN GLOBAL HEALTH: LESSONS FOR THE FUTURE OF PRIORITY SETTING

In each recent decade, different priorities have dominated the global health field. What can we learn from the past half century with regard to the drivers of shifting priorities, as we move from the Millennium Development Goals to the era of the Sustainable Development Goals, and beyond?

Chair & Introduction: Camilla Stoltenberg, Norwegian Institute of Public Health

First speaker: Dag-Inge Ulstein, Minister of International Development, Norway

PART ONE: 49 YEARS IN GLOBAL HEALTH

Throughout Tore Godal's international career—which started in 1970 in Addis Ababa—global health efforts have periodically centred on different themes and issues. In this part, we visit four periods of Tore's work to draw lessons for the next generation of global health practitioners.

"The early days": the search for low-cost interventions for leprosy, malaria and tropical diseases
Peter Smith, Professor, London School of Hygiene and Tropical Medicine

Primary health care and health systems approaches: success and failures
Sigrun Møgedal, former State Secretary and Ambassador for AIDS and Global Health, Norwegian Ministry of Foreign Affairs

At the turn of the millennium, a new momentum for global health innovation – what made it happen?
Jonas Gahr Støre, former Minister of Foreign Affairs, Norway, and former Chief of Staff, World Health Organization

From Gavi to CEPI: the transformation of global health in the 21st century
Seth Berkley, CEO of Gavi

PART TWO: PRIORITY SETTING IN THE SDG ERA

The current global health agenda is as ambitious as ever. At the same time, rapid technological development and calls for transition to domestic financing increases the pressure on countries to prioritize within limited budgets. What are the most difficult priority setting dilemmas countries face

today? How can other countries and global institutions support national priority setting for health toward 2030?

Keynote

Agnes Binagwaho, Vice Chancellor of the University of Global Health Equity, Rwanda, and former Minister of Health, Rwanda

Panel

- Abebe Genetu Bayih, Director General of Armauer Hansen Research Institute, Ethiopia
