

Can Norway become a driving force for future medical technologies?

– *NAMs, organoids and AI*

Wednesday, 12 August
12:15–13:15

Arendal Kino
Hall 2

A forward-looking session exploring how **New Approach Methodologies (NAMs)**, including microphysiological systems, organoids and AI, can transform research, drive innovation, improve patient care and support better decision-making.

Chair: Anders Danielsen Lie

12:15

Opening: New Orleans Jazz
with Svein Erik Martinsen Ånestad

12:20

Welcome: Prof. Stefan Krauss,
Head of the Norwegian FTI-NAM initiative

12:30

NAMs technology – A choice for research, innovation, patients and animals

12:40

New Orleans Jazz
with Svein Erik Martinsen Ånestad

12:45

NAMs technology – Industry perspectives
Presentation and panel discussion (moderated by Anders Danielsen Lie)

13:00

NAM roadmap 2026–2035: Norway's role in NAMs technology
Establishing a working group for a Norwegian/Nordic roadmap for NAMs technology

13:10

New Orleans Jazz
with Svein Erik Martinsen Ånestad
