

IMB

Kandidat: Navn, oppnådd grad			Bedømmelseskomite: oppnevningssdato, navn, affiliasjon, nasjonalitet				Dato for godkjent avhandling og tittel		
Bakken	Linda Nilsen	cand. san.	16.07.2013	Akre Bjørn Ingrid	Harriet Bjorvatn Poulsen	Øre-, nese-, halsavdelingen Universitetet i Bergen Københavns Amts Sygehus i Glostrup	Norge Norge Danmark	23.12.2013	Sleep after first-time stroke. A prospective cohort study of patient-reported and actigraph-estimated sleep and its implications for daily functioning
Bindesbøll	Christian	Master	19.05.2014	Bjarne Laake Lucie	Laursen Petter Laflamme	Statens Institut for Folkesundhed Afdeling for biostatistikk Karolinska Institutet	Danmark Sverige	11.04.2014	Nutritional Regulation of Nuclear Receptors - LXR and PPARs.
Dehnes	Yvette	cand. scient.	23.07.2013	Andersson Ihlebæk Stubhaug	Gerhard Camilla Audun	Linköpings universitet Norges miljø- og biovitenskapelige universitet Akuttlinikken	Sverige Norge Norge	12.12.2013	Sodium-dependent Neurotransmitter Transporters for Glutamate and Dopamine ζ Quantitative, Spatial and Structural Aspects.
Follin-Arbelet	Virginie	M.Sc.	21.01.2014	Catharina E. A. Haavet Jette	Wang Ole Rikard Ammentorp	Universitetet i Tromsø - Norges arktiske universitet Afdeling for allmennmedisin Syddansk Universitet	Norge Danmark Danmark	07.11.2013	Cyclic AMP signaling in multiple myeloma.
Frøslie	Kathrine Frey	cand. scient.	14.06.2013	Espen Paola Saugstad	Hartveit Bezzi Ola Didrik	Universitetet i Bergen Université de Lausanne Pediatrisk forskningsinstitutt	Norge Sveits	23.04.2014	Applications of path analysis and functional data analysis in a longitudinal, clinical cohort study of pregnant women and their neonates
Gjertsen	Finn	cand. sociol.	06.11.2013	Brown Josien Lie	Gordon Régis Benedicte Alexandra	University of Aberdeen Université de Nantes Afdeling for medisinsk genetik	Storbritannia Frankrike Norge		Injury mortality statistics and epidemiology. Classification systems, validity of suicide data, firearms legislation and firearm deaths.
Holtung	Linda	M.Sc.	05.02.2014	Aryan Jonas Kerty	Namboodiri Broman Emilia	Uniformed Services University of the Health Sciences Linköpings universitet Neurologisk avdeling	USA Sverige Ungarn	24.07.2014	Berry press-residue - a valuable source of polyphenols with potential health effects.
Jakobsen	Rune Bruhn	cand. med.	23.07.2013	Gunnar Martine Tasken	Mellgren Amiot Kristin Austlid	Universitetet i Bergen Université Nantes Angers Le Mans Institut for kreftforskning	Norge Frankrike Norge	06.05.2014	Mesenchymal Stem Cells in Cartilage Repair. Studies of Chondrogenesis In Vitro and In Vivo.
Kristjansdottir	Olöf Birna	M.Sc.	30.01.2014	Lise Charlotte Madsen Sally	Berg Jan Erik Roberts	Københavns Universitet Ortopedisk avdeling	Danmark Norge Storbritannia	27.11.2013	Smartphone intervention with diaries and situational feedback for women with fibromyalgia ζ Randomized controlled trial of a smartphone intervention with therapist feedback to reduce pain-related catastrophizing using elements from Acceptance and Commitment Therapy following inpatient chronic pain rehabilitation
Lei	Peng	Master	24.06.2014	Andreassen Finn Roland	Bettina Kulle Drabløs Foisner	Afdeling for klinisk molekylærbiologi og laboratoriefag Norges teknisk-naturvitenskapelige universitet Medizinische Universität Wien	Norge Østerrike	06.02.2014	Cardiac liver X receptor - novel players in heart ischemia and metabolism.
Lobato	Ana Pascual	M.Sc.	10.02.2014	Arne Helland Ree	Lindqvist Åslaug Anne Hansen	Karolinska Institutet Institut for klinisk medisin Klinikk for indremedisin og laboratoriefag	Sverige Norge Norge	20.12.2013	Molecular characterisation of activating receptors in the rat APLEC gene complex.
Lothe	Lise Raven	M.Sc.	08.05.2014	Jørgen Spurkland Zvulun	Wesche Anne Elazar	Oslo universitetssykehus HF Laboratorium for molekylær immunologi Makhon Weizmann Lemada	Norge Israel		Spontaneous and voluntary activity in motoneurons of paraspinal musculature in symptom free and patients with acute low back pain
Lund	Eivind Gard	M.Sc.	24.06.2014	Eskild Grøttum Sørensen	Anne Per Helle	Klinikk for kirurgiske fag Seksjon for ledelse Københavns Universitet	Danmark		Lamin A chromatin interactions characterized using high-throughput methods
Lund-Andersen	Christin	Siv.ing.	23.01.2014	Andreas John L. Melberg	Wienke Hopper Hans Olav	Martin-Luther-Universität Halle-Wittenberg University of Melbourne Afdeling for helseledelse og helseøkonomi	Tyskland Australia Norge	07.05.2014	The radiation-induced G2 checkpoint: impact on genome stability and cancer treatment.
Lystad	Alf Håkon	M.Sc.	14.01.2014	Demeneix Haraldsen Treuter	Barbara Guttorm Eckardt	Museum national d'Histoire naturelle Klinikk for diagnostikk og intervensjon Karolinska Institutet	Frankrike Norge Sverige	26.06.2014	Mechanisms of ALFY in selective autophagy.
Moltu	Sissel Jennifer	cand. med.	26.05.2014	Iris Ranheim Siv Fagertun	Erlund Trine Remberg	Terveysden ja hyvinvoinnin laitos Endokrinologisk avdeling Norges miljø- og biovitenskapelige universitet	Finland Norge Norge	13.05.2014	Enhanced nutrient supply to very-low birth-weight infants ζ Implications for early growth, electrolyte balance and urine metabolite profiles.
Nordengen	Kaja	cand. med.	23.03.2014	Aas Embleton Koletzko	Anne-Marie Nicholas Berthold	Medisinsk klinikk Klinikum der Universität München	Norge Storbritannia Tyskland	13.03.2014	Use of complementary and alternative medicine, fatigue, and personal resources in patients with inflammatory bowel diseases. Two cross-sectional descriptive studies.
Stensrud	Tonje Lauritzen	M.Sc.	03.10.2013	Clausen Elisabeth Frode	Thomas Kvaavik Slinde	Senter for rus- og avhengighetsforskning Statens institutt for rusmiddelforskning Göteborgs universitet	Norge Norge Sverige	13.05.2014	Clinical Communication and Mental Health in General Practice. A study of general practitioners' learning-needs, communication skills training, and the Expanded Four Habits Model
Sæland	Mone Eli	Ernæring NHHH	14.08.2013	Laake Natalie Oddrun	Petter Pearson Samdal	Afdeling for biostatistikk Loughborough University Universitetet i Bergen	Storbritannia Norge	13.12.2013	Eating on the Edge. A study focusing on dietary habits and nutritional status among illicit drug addicts in Oslo, Norway.
Totland	Torunn Holm	Master	07.08.2013	Lissner	Lauren	Göteborgs universitet	Sverige	24.01.2014	"The role of school and home environments in predicting healthy weight development of Norwegian adolescents"

				Ole Thoresen	Melkevik Magne	Folkehelseinstituttet Avdeling for biostatistikk	Norge Norge		
Valberg	Morten	Sivilingeniør	19.12.2013	James M Kay-Tee Thelle	Ntambi Khaw Dag Steinar	University of Wisconsin-Madison University of Cambridge Avdeling for biostatistikk	USA Storbritannia	05.05.2014	The impact of individual heterogeneity (frailty) in cancer.
Vik	Frøydis Nordgård	cand. scient.	02.07.2013	Jan Retterstøl Stine M.	Borén Kjetil Ulven	Sahlgrenska Universitetssjukhuset Laboratorium for molekylær ernæring: fra basale mekanismer til klinisk ernæring i dagens samfunn Høgskolen i Oslo og Akershus	Sverige Norge Norge	19.11.2013	Energy balance related behavior research to prevent excessive weight gain among youth: a focus on meals and sedentary behavior.
Vinknes	Kathrine Jørgensen	M.Phil., medisinske fag	16.01.2014	Jorum Rolf Harald S. Jayne	Ellen Westgaard Garland	Nevrologisk avdeling Norges teknisk-naturvitenskapelige universitet The University of British Columbia	Norge Norge Canada	05.03.2014	Fatty acid profile and body composition.
